SUMMARY

Aspiring Software Development Engineer aiming to design scalable, high-performance systems. Eager to apply strong skills in MERN stack, Python, and cloud technologies to solve real-world challenges. Committed to delivering customer-focused solutions with a collaborative and adaptive mindset.

EDUCATION

Parul University, Vadodara, Gujarat Bachelor of Technology, Computer Science and Engineering	May 2021 - March 2025 Grade: 7.50 / 10
Narayana Junior College, Anantapur, Andhra Pradesh Intermediate Education (12th Grade)	June 2019 - April 2021 Grade: 84 / 100
Sri Sabari EM High School, Anantapur, Andhra Pradesh Secondary Education (10th Grade)	June 2018 - April 2019 Grade: 9.30 / 10

SKILLS

- **Programming Languages:** HTML5, CSS, JavaScript, Python, React.js, Node.js, Java
- **Databases:** Mysql
- **Additional Skills:** Problem Solving, Object-Oriented Programming (OOP), Bootstrap

EXPERIENCE

Dr. Reddy's Foundation – GROW Tech Program **June 2025 – Present**

Trainee – MERN Full Stack Developer Full Time

- Participating in intensive full-time training focused on the MERN stack (MongoDB, Express.js, React.js, Node.js).
- Building production-ready full-stack applications with a focus on modular architecture and responsive UI.
- Developing real-world project features using React, and JavaScript in collaborative sprints.

InnoByteServices **Nov 2024 - Dec 2024**

Python Developer Intern

- Collaborated on backend development projects using Python to enhance system functionalities.
- Assisted in debugging and optimizing code to improve application performance.
- Contributed to the development of scalable solutions for client requirements.

PROJECTS

E-Com Massive [Link](#) **June 2024 - Nov 2024**

- Developed a user-friendly e-commerce platform aimed at small and medium-sized businesses (SMBs).
- Implemented features such as product management, inventory control, and customer engagement tools to enable digital growth without technical expertise.
- Utilized React.js, MongoDB, Node.js, Express.js, and Redux to create a scalable and efficient application.

Finance Manager [Link](#)

- Developed a Python-based finance manager application to streamline expense tracking, budgeting, and financial analysis.
- Enhanced user experience by integrating automated calculations and data visualization features.
- Leveraged Python and SQLite to ensure efficient data storage and retrieval.
